PROFESSIONAL SUMMARY

Frontend Developer with **3 years of experience** in **React** and **TypeScript**. Passionate about technology and **problem-solving**, continuously seeking to enhance skills and deliver **innovative solutions**. Proven experience in high-traffic projects, developing **responsive, optimized, and high-performing interfaces**. Seeking challenging opportunities in an international environment to contribute technical and creative expertise.

PROFESSIONAL EXPERIENCE

Dobes One - FullStack Developer (julho/2023 - until now)

- I work in frontend development using **React** and **TypeScript**, creating **responsive** and **optimized** interfaces. I also engage in **backend** development with **Node.js** and **PostgreSQL** database. I consistently collaborate with teams to ensure seamless integration between frontend and backend. Additionally, I perform maintenance and enhancement of legacy systems in **Delphi**, identifying and addressing issues.

Pecege - Frontend Developer (May 2021 - February 2023)

- Developed responsive and performant interfaces for Pecege products, ensuring an exceptional user experience. Collaborated with multidisciplinary teams using **Agile methodologies** and **Azure DevOps** for task definition and refinement. Implemented new features following **Git Flow** and conducted **Code Reviews** to ensure code quality. Technologies used: **React**, **TypeScript**, **API Context**, **Tailwind CSS**, **REST API**, and **Firebase**.

Ecosis Consultoria em Sistemas - Frontend Developer (October 2020 - April 2021)

- Developed the interface for a sales portal targeting large companies in the ceramics industry, resulting in an **intuitive and engaging user experience**. Worked closely with clients to understand and meet their needs, delivering customized and high-value solutions. Utilized **BitBucket** for code versioning and **Docker** to ensure a consistent development environment. Technologies used: **React**, **TypeScript**, **Styled-Components**, and **SQL Server**.
